**SPECTRUM
HOME CARE**

A Spectrum Health Company

Mission

Spectrum Homecare is a client centered provider of affordable, quality health care and personal care services for individuals of all ages. **Spectrum's** dedicated and professional employees help clients maintain a maximum level of independence in their home and in the community.

Philosophy

Spectrum provides health and personal care services in a variety of community settings. our goal is to help individuals attain and maintain optimum health and independence. We are a full-service, community-based health care provider that is responsive to the changing needs of our clients. **Spectrum** integrates family, friends and outside resources to meet these needs cost effectively.

We believe that clients have the right to expect excellent care. Our clients are involved partners in establishing, implementing and continually evaluating the services by **Spectrum**. Our agency is committed to providing quality care and has a track record of longevity within the communities we serve.

Goals

1. To meet the needs of individuals in maintaining optimum health and independence in the community setting.

2. To provide cost-effective, quality services.
3. To offer a wide scope of health and personal care services which respond to the changing needs of individuals and communities.
4. To comprehensively train and develop employees to provide excellent care.
5. To maintain a financially sound and well-managed company on which clients, families and communities can depend on for many years to come.
