

Carefree LIVING

Memory Care Unit

Carefree Living is proud to announce the opening of our new Memory Care unit. This secured area is located in the north wing second floor.

**NEW
MEMORY
CARE UNIT
IS NOW
OPEN!**

Our Philosophy

This unit has an "open door" policy. We encourage family members to visit at any time and are encouraged to participate in the programming with their loved one.

Suggestions are encouraged and incorporated wherever and whenever possible.

Hospice is incorporated into our care plans to allow residents to stay in one familiar setting until the end of life.

Why we're better

Carefree Living has a long, solid history of providing nothing but the best care for their residents. In our effort to become the best area memory unit in the Twin Cities area, we incorporate these beliefs:

- All memory unit staff receives special training and is required to attend ongoing training quarterly
- 1:6 ratio of caregiver to resident
- Daily activities scheduled every 30 minutes throughout each and every day
- Daily schedule is posted to encourage family members to join in
- Residents are encouraged to help with some daily activities such as setting the table, sweeping or folding laundry
